Annual Report 2019-20

“Time flies over us, but leaves its shadows behind”. Recording the developments as well as benchmarks in the form of Annual report is not only the part of routine, but also a part of historiography. As it has been, the year 2019-20 was also fruitful for the unprecedented development of MES Mampad College in all its anticipated ways. The college hosted its flag in all possible curricular and extracurricular achievements.

Higher education sector in India is passing through a difficult time. At a time when the state and central governments continuously talk after quality education, it's quite shocking that no single university from India is listed under first 100 in World University Ranking 2019. Despite the fact that India tops in all other aspects, higher education segment still faces severe challenges. Administrators have been trying to implement many changes that West did years back to the educational system. One drastic change that academia looking forward to is the fillip of online courses. UGC is giving promotion to Massive Open Online Coursers (MOOC) and our college also has done considerably to it. Definitely, online education would be the new face of higher education tomorrow.

MES Mampad College ranked 25 among national autonomous colleges and 7 on the state level in NIRF ranking 2019. Moreover, we could become one of the very few colleges listed from Malabar region. Undoubtedly, this is a remarkable achievement for a rural college of our kind. This would obviously help the college to serve the community with quality higher education. 2019 Man Booker Prize Winner Jokha Al Harithi's visit to campus and Kabbadi Championship after 18 years add another golden feather to this glorious institution.

Faculty Representation in Academic bodies

Our faculty members have voice in academic and governing bodies of several educational institutions of national repute. At present, college is having one Syndicate member, one Academic Council member, four PG Board of Studies members and 11 UG members in University of Calicut. Apart from this, many of our faculties have representations in board of Examinations, Academic councils and Governing Boards of other institutions of the country.

Seminars, Conferences and Workshops

Knowledge exchange should not be just limited to classroom experiences. Events like conferences, seminars, workshops and invited lectures would also add enormously to the process. As it has been, this year too witnessed programmes ranging from college level to international. The path breaking MESMAC international conference of 2020 has come to set the bar in terms of quality and magnitude. With over 1000 papers presented and 20 books published, MESMMAC conference attracted attention for what a college can make happen. The success of College in organizing Conferences has made possible collaborations with reputed institutions from home and abroad. Shiv Nadar University and Malaya University formed alliances with the college. Of course, this would help us to mark our presence globally.
